Change to last-visited active window

Ctrl-A

0...9

Change to window by number

Ctrl-A

'

<0...9 or title>

Change to window by number or name

Ctrl-A

N

or

Ctrl-A

<space>

Change to next window in list

Ctrl-A

P

or

Ctrl-A

<backspace>

Change to previous window in list

Ctrl-A

"

See window list

Ctrl-A

W

Show window bar

Ctrl-A

K

Kill current window (not recommended)

Ctrl-A

\

Kill all windows (not recommended)

Ctrl-A

A

Rename current window

Getting Out

Ctrl-A

D

Detach

Ctrl-A

D

D

Detach and logout
(quick exit)

Ctrl-A

:

Exit all session

Ctrl-A

C-\

Force-exit screen
(not recommended)
